NFAC

24 April 1979

Extract(s) from the Staff Meeting Minutes of 23 April 1979

The DCI noted that for his meetings on SALT this week, he had adjusted and updated his outline and matrix--would like Bowie to review and advise. Relatedly, Bowie advised that the DCI should find out as soon as possible what the Administration's official position (statement) will be. The DCI agreed and noted the importance of his need to let the White House know early of any differences or difficulties the DCI might have relative to an established position by the White House. (Action: D/NFAC)
